The new trailer for the Halo Infinite campaign shows the iconic vehicle of the series snowmobiles and ATVs - Halo 4 Snowcross, on which you can "eat up" off-road with an excess. Due to the fact that in the design This vehicle uses various types of jump drones, in practice it is able to compete on equal terms with ultra-fast sports four-wheel drive motorcycles. With an optimal weight-to-power ratio, Halo 4 SnowCross speeds up to 100 kilometers per hour. As with any racing game, Halo Snow Cross has room for a variety of stunts, including dangerous ones such as jumping over a ditch, and overcoming obstacles at an incredibly high speed. Halo gameplay is open and every player can try everything in practice without endangering himself. The trailer for Halo is a very exciting spectacle, in in which the very essence of the game Halo is involved: the question "What to do?" does not cause much thought.
